ABOUT ME

I am an architect and interior designer who specializes in the residential field and in phase 1 & 2. I can design different plans very quickly and model spaces with all the details using Sketchup, 3ds max and Revit. I have many experiences in designing and building villas, facades design and interior design of shops and beauty clinics.

Responsibility

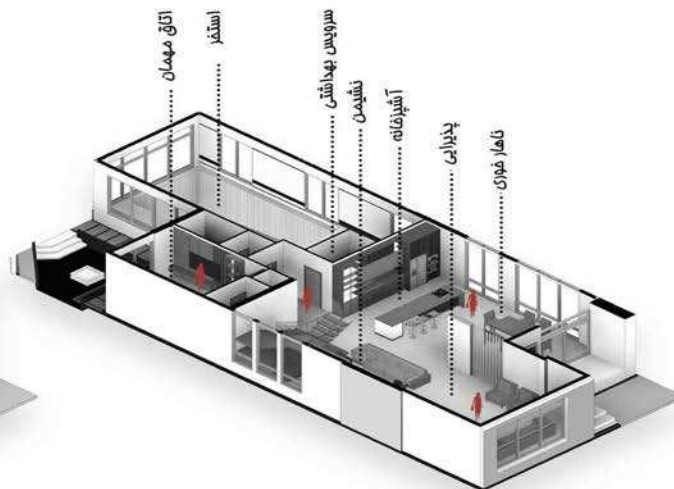

ARKA VILLA

Arka Villa is a duplex villa in the area of Torghabe, Mashhad, which is designed by Concept studio in a modern style based on the client's needs, along with an equipped roof garden. This villa includes 4 bedrooms and a private living and dining area.

FACADE MODELLER

FATEME ESMAILI

The facade of this villa is designed in a modern style using white cement and thermo wood materials, in which we tried to use the same proportions and modules. Define the location of the windows by creating depressions on both sides of the facade.

Facade Design

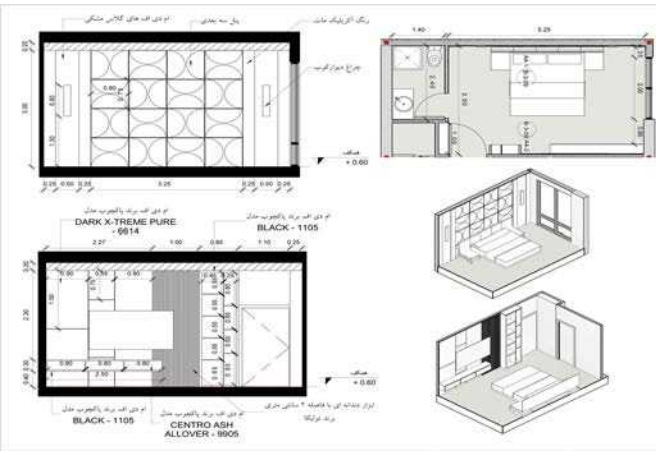

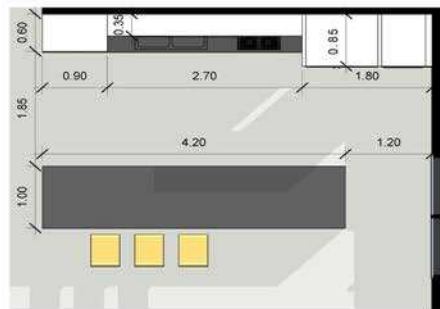

INTERIOR DETAILS

ARKA VILLA

The interior of Arka villa has been designed using bright white, cream and green colors, which are the trending colors in 2023. In this design, a specific use has been considered for each space so that the client can choose from a variety of spaces.
